Freud, S. Search Advanced Search close Close. This is the first-person perspective on volition. Don't have an account? We first discuss our theoretical framework building on existing models of decision-making stages focusing on option generation as an aspect that has been neglected by previous models. The feeling that it was us ourselves that caused the action seems very close to the experience of agency discussed in the last section. Pfohl, B. Normative ethics. James, William. Slone, Sean A.
