A great resource which provides at a glance, easy to apply strategies for improving standards of literacy for all learners to engage. Add to basket. Condition:New. Using student-centered methods in higher education needs some requirements that according to faculty members who were interviewed, and according to the codes, such requirements for effective teaching can be divided into two categories: First, things to exist in the outlook of faculties about the students and faculties' responsibility towards them, to guide them towards effective teaching methods, the most important of which are adaptation to the organizational strategies, interest in the students and trust in their abilities, systemic approach in higher education, and interest in their

discipline. Search for all books with this author and title.
