Deciduous tree windbreak A deciduous tree windbreak uniformly distributes the snow across the field to replace soil moisture without delaying spring time planting. Remember, Snow Fence Road best to install a single row of taller fence, rather than multiple rows of shorter fence -- for both effectiveness and economy [source: Tabler ]. Although in rough terrain or snow covered areas the bottom gap may be higher.

Fences should be setback from the shoulder of the road, and perpendicular to the road. The exact spot where the snow will pile will vary with the height of the fence, how much air can get through the fence, the wind-speed and other factors. Glad you appreciate Snow Fence Road post. I need to update the post with some photos from last winter. AllRightsReserved. Yes No.
