It admits that there is more than one kind of postmodernism 'there are many different varieties', p. Here the story is about a double movement. Firstly, DNA analysis has established a firmer chronology of the spread of the species from its original African origin throughout the world, before the appearance of written sources.

It is denied that there is any reality that is objectively there and not constructed. And Evans' big problem with the postmodernists is that by making these grand claims about there In Defence Of History no objective truth at all in history, they leave the door wide open for unscrupulous people like holocaust deniers to delude non-historians. Other Editions The young now, even more so, retreat into their over stimulating computer games and televisions and forget about what is real, and about truth altogether.
