A reversal of this trend would be a meaningful U-turn in human digital evolution. Machines fall short of revolutionary science.

Shaping alternative futures starts by establishing a number of scenarios. The advantages of language, as the beginning of information storage in the minds of others, allowed hominins to live, hunt, gather, and groom in groups and to gossip in the mating competition Dunbar, Ian Miles. In terms of the potential lethality from the radiation emitted by so many artificial nuclear explosions, considering how much natural cosmic radiation already permeates space in general, the relatively small amounts of additional radiation from the destruction of the biodomes would be negligible in comparison.
